Subject: Voodoo affordable housing project
Date: Monday, April 18, 2022 8:00:40 AM

Dear members of town council and Mayor Young,

I live in Muscatel Flats, a neighbor within 150 feet of this proposed development. We are going to be directly impacted if this development is built in its current configuration. I AM in favor of affordable housing but NOT on this lot in the National Historic District. This project is too large in mass, scale and height for the size of the lot. It also doesn't fit in with the neighborhood given its proximity to the cribs and other historical buildings. I wish to raise this main point:

1. CONFLICT OF INTEREST: By definition this is a conflict of interest for Town Council to have called this application up from HARC. The Town of Telluride is the APPLICANT, the Town of Telluride cannot also be the JUDGE! That would be like a judge making a decision on her own traffic ticket. How long do you think that judge would keep her job? Please send this matter back to HARC and let them do the job they were appointed to do so there's some chance that the design guidelines will be followed, if this project goes through. HARC members are trained in the complicated nuances of properly building within the National Historic District. We do not want to see them resign.

Also, personally I would recommend to the architects to put forth a small cluster of tiny pastel homes (WITH PARKING!) similar to the adjacent cribs. While it wouldn't come anywhere close to the proposed 29 units, it would be historically accurate since all of Pacific Street was at one time Telluride's Red Light District. The Town could then focus on purchasing and building large scale affordable housing up Last Dollar Road, where such projects are more appropriate.

Thank you for your consideration and for your service to the community.

Subject: FW: town council call up
Date: Monday, April 18, 2022 8:30:20 AM

To the Town Council,

As a 48 year local I have to strongly urge town council to remand the call up to HARC and P&Z so they can finish their jobs that they have been groomed to do as stewards of the town. I agree with the Nore Winter email along with TD and Page Smith's and many other emails sent to the town by impacted neighbors and very concerned citizens. Therefore, I won't go into all of the detail, but please know that I think the town council is walking a very dangerous line with this call up and has an opportunity to ruin everything we have all worked so hard to preserve. I also agree with Mark Schambaugh's email who goes through the situation in detail. The town council does not have the training that HARC committee members have for one. The most problematic issue as I see it, is why do we as citizens of this historic town have to follow these very strict rules and regulations the town has put in place, and then the town for whatever reasons believes that it does not have to follow these same rules. Seems like quite the double standard to me. So the town doesn't have to play by the same rules as we do and can do whatever they want whenever they want?? I don't remember this being in any of the guidelines for HARC or P&Z.

I implore you all to do the right thing here and send this back to HARC and let them finish their jobs. Also, have any of you thought of the consequences of having all five members of HARC resigning? It will hold up the building process for many months costing the homeowners and all involved many more dollars to get their projects approved, as we won't have one of the most important committees available to get these folks through the process, HARC.

The parking is another area that cannot be overlooked. It will be a disaster if we do not get another garage built. We keep pushing this off to car henge or they can ride their bikes and have only one car. That is not realistic and this issue needs to be dealt with by P&Z.

Respectfully Submitted,

Sally Puff Courtney
