Background:

This memorandum summarizes, for Town Council's consideration, the first reading of an ordinance amending the 2024 Budget by re-appropriating certain unexpended balances from fiscal year (FY) 2023 to FY 2024 in addition to making supplemental appropriations from existing fund balances and revenues in excess of the amount estimated in the 2024 Budget.

Budget management includes periodic adjustments of the current budget to re-appropriate unexpended appropriations from the preceding year's budget that are necessary for ongoing work and projects, or those appropriations contractually committed by the Town but not fully expended. Adjustments are also used to address grant funds which may span a period of time exceeding the Town's calendar budget year.

Adjustments typically occur after prior-year accounts are initially closed-out, outstanding bills are paid, and revenue adjustments are posted through the Town's annual audit. This budget amendment process creates an opportunity to make modifications due to changes in revenue estimations that have been identified since the budget was adopted.

Analysis/Financial Analysis:

Section One: This section reconciles the beginning 2024 budgeted fund balance to the audited fund balance and shows the audited excess in fund balance or shortfall compared to budgeted fund balance. The net effect column shows the change in fund balance after the requested midyear budget adjustments if approved.

In the General Fund, Affordable Housing Fund and Town Lodgers' Tax Funds the audited excess is considerable due to a change in accounting for sales and excise tax revenues. Previously December was accounted for in the next calendar year as the revenue is received in January. During the 2023 audit December 2023 sales tax was accounted for in 2023 rather than 2024, therefore the revenues are higher than budgeted.

Section Two: This section addresses the re-appropriations of unexpended 2023 budget lines that were expected to be spent in 2023 but will be expended in 2024.

These capital projects either span two years or were not completed in 2023; therefore, the balance has been rolled over to be spent in 2024.

Section Three: This section concerns the budgeting of new revenue sources that were not addressed in the 2024 Budget and any increases in the revenue over current budget used to fund budgets.

Grants for 2024 include \$30k from the Colorado Energy Office for installation of EV charging stations as well as a CTO wayfinding grant in the amount of \$20k.

A DOLA grant was approved in the amount of \$2M to assist in the affordable housing component of the Voo Doo project and originally budgeted in the Affordable Housing Fund. After completing the 2023 audit, a Voo Doo Enterprise Fund has been established wherein all bond-related project expenses are accounted for.

Purchase and sale of deed restricted housing units are shown in the Affordable Housing fund, rather than the Capital Fund after discussion at the staff level.

Other notables within section three include the adjustment to the fund balance for the Set Aside in both the Affordable Housing and Open Space Funds (for the increased or decreased reserves at year end 2023). This amendment is performed each year when the audit is complete.

Section Four: These supplemental budgets are funded from fund balance reserves. With respect to all the funds, the request is for new items that have been approved since the budget year commenced. These items were typically not known and hence not budgeted in the Fall of 2023 when the 2024 budget was approved.

The bulk of the 2024 budget adjustments are to reclassify the approved budget to another line item where the expenditure fits better. Many of these were suggested by our new auditors after completion of the 2023 audit. The Town Charter 10.2.D allows for the town manager to make these transfers within a fund. In order to be financially transparent these transfers have been included in the current budget request for council review.

A new department has been created in the General Fund called Community Services which encompasses the facilities maintenance team. Labor Costs and expenditures are included in the midyear budget requests. With the creation of this new department staff has reallocated several budget line items into more specific facilities maintenance lines.

Debt payments have been included for the 2024 COP in the Water and Shandoka Funds respectively. As well as bond proceeds.

Public Works frond end loader needs to be replaced in 2024 rather than 2025 as scheduled. Funds are transferred from vehicle storage buildings to cover this cost.

The Town's auditors created the Voo Doo Fund during the 2023 audit and suggested that all project costs, revenues and debt payments be accounted for in this single fund moving forward. Several reallocations are made to accommodate this request. The only remaining budget for this project in the Capital and Affordable Housing Funds is for the remaining town subsidy.

The Town Lodgers' Tax Fund has salaries being reallocated to benefit line items to be properly accounted for. Budget line items have been reallocated within this fund as well as from the Managers Department in the general fund where originally budgeted. Youth hangout operating costs are new and included in this fund.

Implementation of the Compensation Plan as of August 3, 2024 is broken down by each fund. Total cost of \$571k annually. Prorated the total effect on the 2024 budget is \$235k which includes employer FICA taxes and 401k match.

Motion:

Move to approve on first reading an ordinance of the Town Council of the Town of Telluride, Colorado amending the municipal budget to re-appropriate certain unexpended 2023 budget line-item amounts; to make supplemental appropriations from existing fund balances to various accounts, to make supplemental appropriations in excess of those estimated in the 2024 Budget, and to direct the Town Clerk to set a public hearing for August 6th, 2024.

ORDINANCE NO. _____
(SERIES OF 2024)

AN ORDINANCE OF THE TOWN COUNCIL OF THE TOWN OF TELLURIDE, COLORADO AMENDING THE 2024 MUNICIPAL BUDGET TO REAPPROPRIATE CERTAIN UNEXPENDED 2023 BUDGET LINE ITEM AMOUNTS, MAKING SUPPLEMENTAL APPROPRIATIONS FROM EXISTING FUND BALANCES TO VARIOUS ACCOUNTS, AND MAKING SUPPLEMENTAL APPROPRIATIONS FROM REVENUE IN EXCESS OF THOSE ESTIMATED IN THE 2024 BUDGET

WHEREAS, the Town Council of the Town of Telluride adopted the 2024 Budget on October 24, 2023; and

WHEREAS, certain 2023 expenditure line items were not encumbered and payable prior to January 1, 2024; and

WHEREAS, the Town Manager has determined that these appropriations of unexpended 2023 budget items are necessary; and

WHEREAS, Section 10.12 of the Telluride Home Rule Charter authorizes the Town Council to make supplemental budget appropriations upon certification by the Town Manager that revenues in excess of those estimated in the Town's annual budget have been received by the Town; and

WHEREAS, the Town Manager certifies that the Town has received and is expected to receive certain revenues in excess of those initially estimated in the Town's 2024 budget; and

WHEREAS, Section 10.10 of the Telluride Home Rule Charter authorizes the Town Council to transfer contingency funds by resolution or ordinance into separate accounts for specific expenditure purposes; and

WHEREAS, the transfer and expenditure of the contingency funds as provided for herein could not readily have been foreseen when the 2024 Budget was adopted; and

WHEREAS, on November 8, 1994 voters in the Town of Telluride authorized the Town of Telluride to collect and expend all Town revenues generated in 1994 and future years by fees, fines, charges, taxes and tax rates, and non-federal grants and funding, without regard to state imposed fiscal year spending restrictions or limitations (TABOR).

NOW, THEREFORE, BE IT ORDAINED BY THE TOWN COUNCIL OF THE TOWN OF TELLURIDE, COLORADO as follows:
