

Agenda
Town Council Budget
Thursday, October 9, 2025 @ 9:00 AM
Hybrid/Rebekah Hall, 113 W Columbia Ave

MEETING INFORMATION

This meeting will be held as a hybrid meeting. Unanticipated technological issues that prevent a meeting from being held as a hybrid meeting will not be grounds for cancelling the meeting. Remote participants are welcome to join the meeting by clicking [HERE](#).

The meeting will also be live streamed on [YouTube](#). Materials distributed after packet publication can be accessed in Document Center.

Join by phone at (719) 359-4580 or (669) 900-6833; Meeting ID# 861 5266 7341; Password 998575.

Para solicitar interpretación simultánea al español para un punto específico del orden del día o para solicitar material traducido, envíe un correo electrónico a info@telluride-co.gov antes del mediodía del viernes anterior a la reunión.

CALL TO ORDER

ROLL CALL

1. WORK SESSIONS

(9:00am - 12:00pm)

- 1.a. Budget Discussion: Enterprise Funds, Open Space, Affordable Housing, and All Other Funds - Kailey Ranta, Zoe Dohnal
[Staff Memo - 2026 Budget All Other Funds - Pdf](#)
[Staff Memo - Community Services Departments - Division of Rental Housing Budget Considerations - Pdf](#)

2. ACTION ITEMS

ADJOURNMENT

TIMES ARE APPROXIMATE AND SUBJECT TO CHANGE

Individuals with disabilities needing auxiliary aid(s) may request assistance by contacting Town Hall: address - 135 W Columbia, P.O. Box 397, Telluride; Phone- 970-728-2157; Fax - 970-728-2496; email tkavanaugh@telluride.gov. We would appreciate it if you would contact us at least 48 hours in advance of the scheduled event so arrangements can be made to locate requested auxiliary aid(s).

Written comments must be sent to the attention of the Town Clerk at townclerk@telluride.gov by **noon on Wednesday** prior to the meeting for inclusion in the packet materials. Written comments received after the deadline will be distributed to Town Council under separate cover, but cannot guarantee full consideration if not delivered by the deadline.

**Town of Telluride
Town Council
MEMORANDUM**

Title:	Open Space, Affordable Housing, Enterprise and Other Funds
To:	Mayor and Town Council
Meeting Date:	October 9, 2025
Submitted By:	Kailey Ranta, Finance

Discussion and Financial Analysis

Debt Service Fund - This fund accounts for special assessment debt service requirements, special assessment levies, GO debt service and lease purchase agreements.

- Accounts for a portion of the 2013 COP refunded in 2021 connected with the Marshals building. The original financing was for the Pandora Water Plant.
- Annual Debt Payments of \$25,000 funded by the General Fund. The transfer for 2025 is lower because the fund balance is being used. This fund operates with a zero balance annually.

Restricted Fund - Restricted Funds include revenues and donations that are restricted to be used for certain purposes.

- Examples: Paper Bag Fees, Dog Surcharge Fee, Tree Fee, P&R Donations and Marshal's Donations.
 - Historically, Marshals donations have gone towards a scholarship to a student in the R1 school district.
- Any additional revenue from the Festival Attendance Fee is transferred from the General Fund to the Restricted Fund.

Energy Mitigation Fund - This fund accounts for green energy fees charged by the Town through building permits, which are to be used for energy conservation projects and to offset the Town's carbon footprint.

- Major Revenues: Temp Fee, Green Building Fees.
- Fees are collected on building permits.
- Fees are used for conservation projects within the Town.
- Helped to fund Sunnyside net zero projects.
- Helps to fund the Green Grants Program with Eco Action Partners.
- Purchases trees for replacement programs.
- Used for Climate Action Plan projects.
- The Sustainability Division falls under this fund.

Sustainability Division Mission - Environmental, social, and economic are three intertwined pillars of sustainability. The mission of sustainability is to enable the Town to

take proactive, solution-oriented approaches to ensure our future is fair, viable, and livable. Social sustainability focuses on improving social equality, environmental sustainability focuses on the region's reduction of greenhouse gases, and economic sustainability aims to improve the standard of living for the community and ensure the Town's fiduciary responsibility.

Service Description - Environmental sustainability works to ensure environmental protection and resource management by making measurable progress toward the Town's goal of greenhouse gas reduction by 70% by 2030 by 2010 standards and 95% reduction 2040. Social sustainability works to enhance quality of life by identifying and addressing barriers for residents interacting with Town government and services. Economic sustainability looks to ensure smart growth, long-range planning, and financial efficiencies within Town operations and the community.

2026 Focuses

Environmental

- Conduct feasibility study to identify and scope thermal energy network (geothermal) potential for Town Public Works facilities on Black Bear Road and Shandoka Lot L and Carhenge development projects
- Explore the development of a community-wide building energy retrofit program through benchmarking and/or building performance standards policies, in alignment with 2022 Climate Action Plan item Buildings & Energy focus area (BE 1.2), to support improved energy efficiency and emissions reductions.
- Explore a pilot incentive-based exchange program for landscaping equipment, as recommended in the Climate Action Plan (BE 2.6).
- Conduct municipal and community GHG inventory and community outreach and engagement needed for required 2027 Climate Action Plan update.
- Explore a pilot program to install public compost receptacles and develop a reusable takeout container initiative, including identifying funding mechanisms, in line with Climate Action Plan Materials & Consumption focus area (item MC 2.5)

2026 Budget: Increases to the Sustainability Program budget include funds to provide the local cash match for a grant request that would drive the buildings benchmarking and/or building performance standards efforts, funds to explore for landscaping equipment exchange and downtown public compost receptacle pilot programs, and funds to provide the local cash match for a grant-assisted thermal energy network (geothermal) pre-feasibility and scoping study. Reductions in the budgeted amount for Town's contracted services with EcoAction Partners reflect the added capacity of the Sustainability and Grant Administrator and maximizing of budget funds for increased, measurable CAP action item outcomes in the areas mentioned above.

Transportation Fund - The Transportation Fund accounts for the Town transit operations.

- Funding comes from the Capital Fund, and from grants for operations and capital.
- Grants for 2026: CDOT transit and rail grant \$158,350.

Transit Division Mission - To provide safe, reliable and courteous public transportation to guests and local commuters and to provide ongoing long-term transportation to the Town of Telluride.

Service Description - The Galloping Goose Transit System is a fixed route that operates as a loop around the town. The route serves workforce housing projects, provides service for youth programs, and has stops at all of the town's main amenities, including the Telluride Medical Center, the Telluride High School/Middle School, Wilkinson Public Library, Town Park and the Gondola.

2026 Focuses

- Commence construction of PW Maintenance Campus. Manage grant funding.
- Continue supporting and construction EV infrastructure to support EV Transit vehicles.
- Maintain and accident-free year for Town Transit

2026 Budget - The 2026 budget reflects a slight overall increase from the 2025 budget, with most general ledgers remaining unchanged and decreasing adjustments focused on aligning with historical actuals. Increases modification are only related to salary adjustments.

Child Development Fund – Beginning January 1, 2024 the Town took Elaine's Place under their umbrella.

- Subsidized by the General Fund \$150k in 2025 and \$166k for 2026.

Childcare Division Mission - To provide exceptional, full-time childcare for toddlers ages 1-3, fostering a safe, nurturing, and developmentally appropriate environment that supports the well-being of children and strengthens the community by enhancing regional economic stability by offering reliable childcare services.

Service Description - Offer high-quality childcare services for up to 14 toddlers, ages 1-3, five days a week, in compliance with Colorado licensing standards.

2026 Focuses

- Offer quarterly family events at Elaine's Place Early Childcare Center.
- Provide helpful parenting tips to our families on a regular basis in a newsletter type format.
- Collaborate with regional partners to build stable and reliable childcare for the region.

2026 Budget - Our daily fee will increase from \$72 per day to \$78 as of January 2026 which mirrors the rates at the other facilities in the region.

The subsidy from the General Fund for 2025 was much higher than expected due to salary and benefit costs and a shortfall of \$27,500 in grants received. The grant outlook for 2026 should be better based on the pending Colorado Shines rating.

Health Reserve Fund – As requested by our auditors this fund was created January 1, 2024, to account for all health insurance related transactions. This is necessary to properly account for self-insured insurance plans. The individual employee monthly accrual is still reported in each department and respective funds as an expenditure. Staff has increased the 2026 accrual for health benefits based on preliminary numbers from insurance provider. We will continue to evaluate if this is reasonable.

Town Lodgers' Tax Fund – Accounts for the collection of the 2% lodgers' tax on lodging rentals that became effective January 1, 2022. The revenue is to be used exclusively to fund activities related to tourism or marketing of the Telluride community and managing the effects of tourism on the community. Other purposes include but are not limited to; acquisition and construction of property for affordable housing, improving the wastewater treatment facility, and transportation services.

- The Communications Division falls under this Fund.
- Lodging tax revenue is currently up 12% YOY from 2024 through July.
- For 2025 projected year end a 10% increase compared to 2024 in this revenue source is requested.
- For the 2026 budget staff are recommending a 5% increase compared to 2024.

Communications Division Mission - To provide innovative and creative communications solutions through multiple modes, languages, and channels to engage with the community effectively, build trust through transparency, and ensure that vital information reaches residents, businesses, and stakeholders.

Service Description - Communications advances the Town's strategic vision to help position Telluride as a thriving, healthy, smart, and innovative community. The goal is to serve each of the Town's residents through communications strategy and response, marketing, graphic design, social media, web management, and video production.

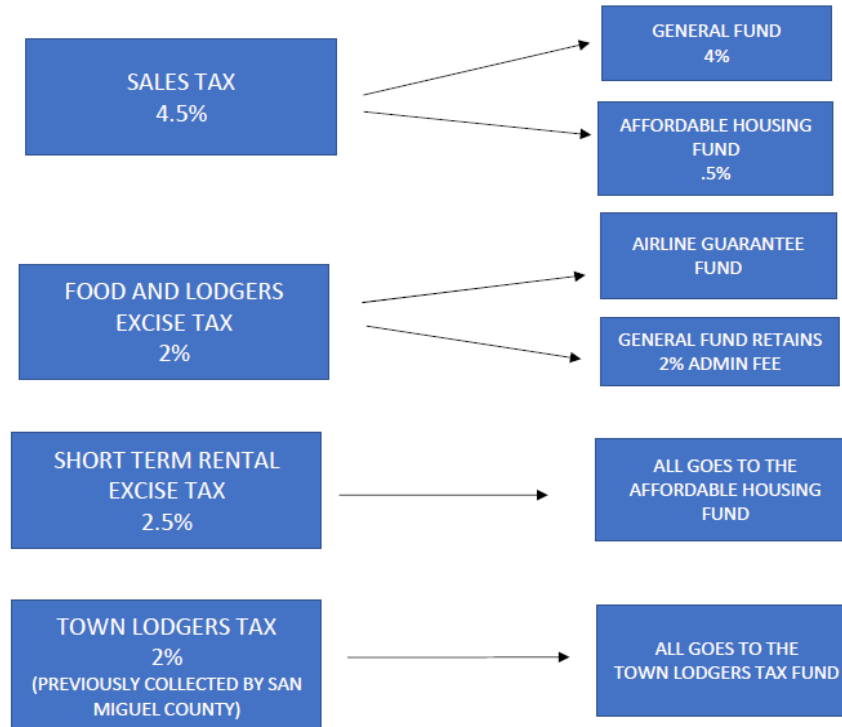

2026 Focuses

- Continue participating in the County Wildfire Protection Plan (CWPP) update process, while overhauling the Town's Emergency Response Plan and collaborating with the County to strengthen regional wildfire preparedness.
- Install Phase I of the Town's Wayfinding, Placemaking, and Signage project to improve navigation, enhance public spaces, and strengthen the sense of place for residents and visitors alike, while designing Phase II for implementation in 2027.
- Continue to enhance the Town's communication strategies by implementing bilingual Town Council previews and recaps across multiple platforms—including radio, newspaper, social media, video, and email—and by creating a centralized content calendar to coordinate messaging across divisions.
- Continue to advance internal communication tools by providing quarterly training for department staff on writing, design, and engagement, and by building an internal photo/video library to enhance storytelling and reduce turnaround time.

2026 Budget - The proposed 2026 Communications Division budget reflects increased funds to fabricate and install Phase I Wayfinding, Placemaking, and Signage assets and resources and commence design and implementation planning for Phase II. A flat spend is expected in community engagement, software, and website as the Town maintains

establish content and communications strategies. Additional support staff has been requested to expand bandwidth and assist in implementing the 360 communications strategy including expanded reach on social media.

- \$765k is projected to be paid to Marketing Telluride in 2025, and \$750k is budgeted for 2026.
- A part time Communications Coordinator is included in the 2026 budget.

Airline Guarantee Fund – Accounts for the collection of the 2% excise tax on lodging rentals, and sale of food and drink served or furnished in restaurants and bars that became effective on January 1, 2004. The moneys in this fund are to be used to support airline service at the Telluride and Montrose airports.

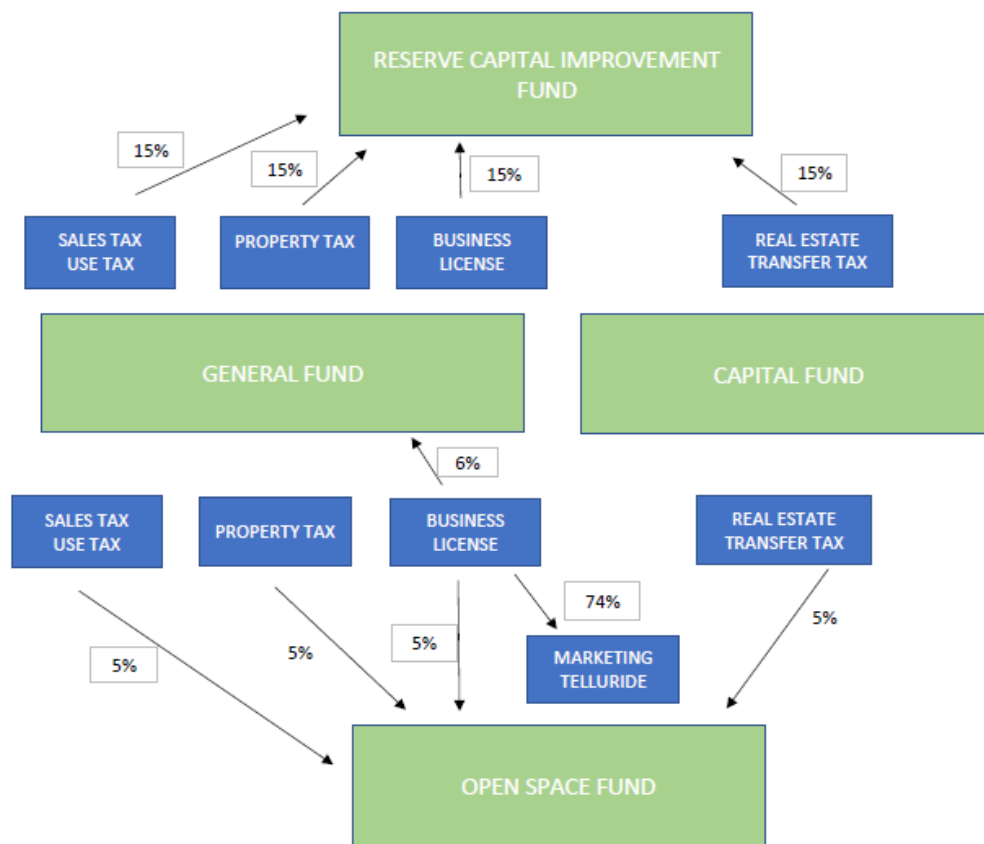

- This fund is funded by a 2% excise tax on food and lodging.
- The Town retains a 2% administrative fee, the remaining revenue is passed through to Telluride Montrose Air Organization.
- Excise Tax for Lodging is currently up 5% YOY compared to 2024 through July. This revenue is budgeted flat for 2026 from 2024 actual revenue.

Conservation Trust Fund – Accounts for certain Parks and Recreation equipment and is funded by lottery revenues.

Open Space - The Open Space Fund accounts for the acquisition and maintenance of open space. Reserves are developed over time and used to acquire property and pay debt on purchases, like the Valley Floor.

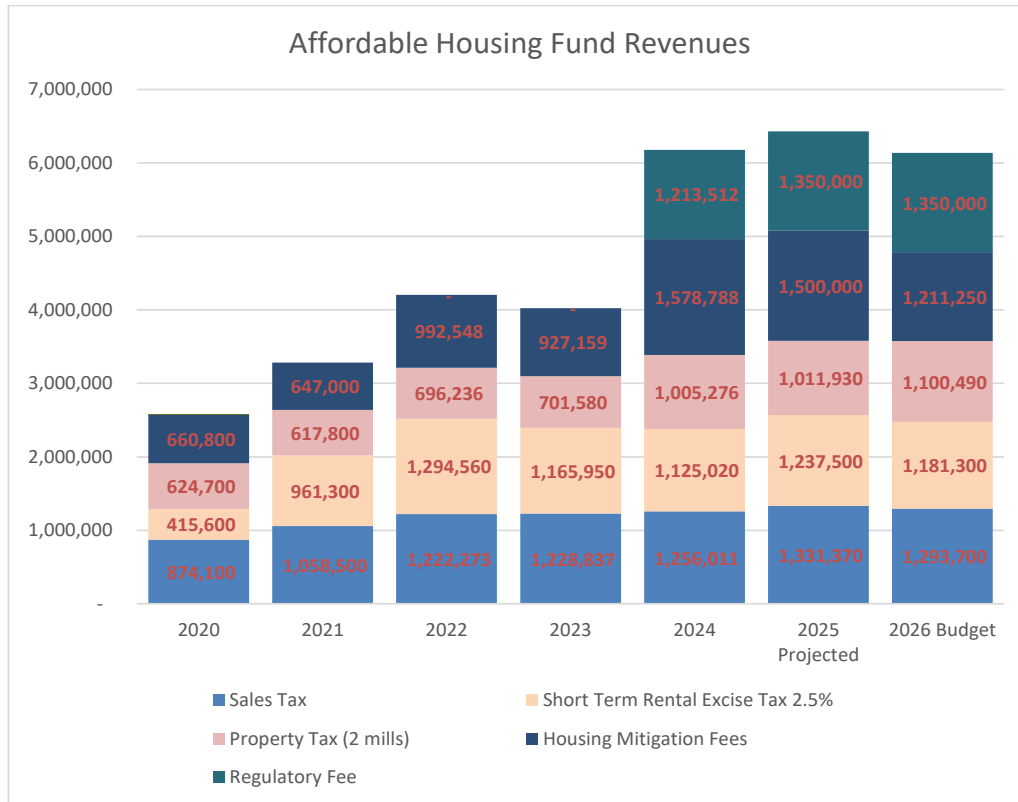

- Historically revenue came from 20% of Sales Tax, Property Tax, Use Tax, Motor Vehicle Tax, Business and Building Licenses, and Real Estate Transfer Tax. At the time this was passed by the electorate open space was a high priority for the citizens of Telluride and this funding method needed to stay in place as long as there was outstanding debt.
- At the direction of Town Council staff was able to pay off the Excise tax bond with a principal balance of \$6.265 in November of 2022. The COP was also paid in full in February of 2023. Which freed up this funding source to be used for other town capital projects which now hold a high priority.
- Effective August 1, 2023 5% of these revenues are dedicated to open space while the remaining 15% are now allocated into a newly created Reserve Capital Improvement Fund.
- All additional revenue not spent during the year is budgeted to a set aside account, making the fund balance \$0 at year end.

Allocation of Funds to Open Space Fund

Affordable Housing - The Affordable Housing Fund finances the development and preservation of affordable housing for the Town.

- Major Revenues
 - One-half percent sales and use tax.
 - 2 mill property tax levy effective January 1, 2019.
 - Housing Mitigation Fee
 - 2.5% Short Term Rental Excise Tax effective January 1, 2020.
 - STR Regulatory Fee effective January 1, 2024 - \$857 per bedroom.
- All additional revenue not spent during the year is budgeted to a set aside account, making the fund balance \$0 at year end.
- Housing projects are often subsidized from this fund. Subsidies for each project allow the town to charge lower rent fees than if the full project was financed.
- Short Term Rental Excise Tax is currently up 19% YOY compared to 2024. An increase of 10% from 2024 is reflected in the 2025 actual projections, and 2026 is budgeted with a 5% increase compared to 2024.
- Sales tax on short term rentals is currently up 15% YOY compared to 2024. A 3% increase is included in 2026 budget to be consistent with the increase in the General Fund.
- The purchase and sale of Deed Restricted Housing units is accounted for in this fund rather than the Capital Fund as it has been in the past.

Housing Development Division Mission - To preserve and improve the Town's sense of community by providing equitable access to safe, affordable, and sustainable housing solutions. Rooted in our commitment to preserving the community, staff strives to create vibrant neighborhoods and housing developments where every resident can thrive.

Service Description - Plan and implement affordable housing stock, pursuant to Town Council direction and adopted plans to meet current and projected demands.

2026 Focuses

- Ensure Canyonlands/Tower House project PPP completes construction, occupancy of AHU rental/sale units
- Complete construction and occupancy of Virginia Placer Phase 2A project
- Continue to explore options for the development of the Virginia Placer Phase 2B Project
- Complete Carhenge Design/Entitlements/Cost Estimate/Financing & Development Approach for affordable housing and neighborhood-serving commercial uses
- Complete Lot L Design/Entitlements/Cost Estimate/GMP/Financing and Development Approaches & Sequencing for neighborhood and public parking, affordable housing, childcare, transit-oriented and neighborhood/public commercial, and neighborhood park uses consistent with Alternate # 2 of the Lot L Preliminary Plan
- Ensure housing projects align with the San Miguel County Regional Housing Needs Assessment in advancing Town-led efforts, maintaining existing partnerships, initiating new collaborations, and contributing to a holistic, regionally coordinated housing strategy
- Maintain efforts to pursue land banking opportunities
- Continue to explore the creation of gathering spaces that foster community connection and reflect the Town's character through intentional land use planning
- Pursue opportunities to incorporate affordable commercial space into Town-led development projects to support local businesses, economic diversity, and overall community livability.
- Stay responsive to community demand for mental health services and collaborate regionally to ensure adequate space and resources—such as dedicated office spaces—are available
- Continue to incorporate childcare and early education facilities into new development projects, where feasible, to help address identified regional needs and support working families

2026 Budget - The proposed 2026 Housing Development Division budget remains unchanged from 2025 and seeks to implement the Focuses and projects as listed above and provide support for other projects, such as municipal facility master planning. Many of the above projects are specifically funded, as authorized by Town Council, from the Affordable Housing Fund, Capital Improvement Fund, Parking Enterprise Fund and other funding sources and mechanisms as deemed appropriate.

Enterprise Funds – Are run similarly to a business. The services offered should entirely or predominately be self-supporting through user charges. Town Enterprise funds are

the Water Fund, Wastewater Fund, Shandoka, Virginia Placer, Voodoo and Sunnyside Funds and Parking Fund.

Water Fund – Accounts for all operations of the Town's water services. It is primarily financed by user charges and user connection fees (tap fees).

- Major revenues: Services, tap fees, mill levy for the Pandora Water Plant.
- Water Rate studies have suggested rate increases annually. An updated rate study was completed in the Fall of 2023.
 - Prior and recommended rate increases are shown in the table below.

	2020	2021	2022	2023	2024	2025	2026
Water	12%	10%	5%	7%	5%	5%	5%
Wastewater	8%	8%	12%	22%	20%	18%	5%

- The current study recommends a 5% rate increase annually through 2028.
 - This took into account the \$5M COP issued in 2024 (January 2024). And another \$2M debt issuance in 2026. With the current fund balance this can be postponed.
- The Town currently has three outstanding water debt series.
- For the 2026 proposed budget the Water Fund is using \$3.9M of the Fund Balance for capital projects which leaves an ending fund balance of \$1M

Division Mission - To provide safe, high quality, uninterrupted water utility services, in a manner that respects the natural environment and provide exceptional customer service while developing best business practices and motivated workforce.

Service Description - Effectively run the water plants to meet the town's needs and permits through the state.

2026 Focuses

- Replace existing high pressure fill line to Stillwell storage tanks.
- Evaluate and repair east tank lining.
- Upgrade Stillwell treatment plant to reinstate production approval from the state.
- Upgrade and/or install new (telemetry) system controls in the Town's remote distribution assets to measure and report system information. Systems include pressure-reducing vaults, tanks, etc.
- Replace existing pressure reducing valves (PRV) throughout Town. Town's existing PRVs are past their life expectancy and are no longer serviceable. The Water Division plans to upgrade existing PRVs with new smart valves that connect to the department's telemetry for data collection and monitoring purposes.
- Accelerated Water Meter Replacement Program.
- Finish Pandora, Cornet Creek and Millcreek water treatment plant upgrades from 2025.
- Update Water Master Plan, Water Efficiency Plan, and Resiliency Plans.
- Stillwell water tank rehab design.

Notable 2026 Budget - For 2026, the majority of the general ledger accounts did not see an increase. General ledger accounts associated with Oil, Grease, Filters, Insurance, and maintenance were increased slightly higher to align with 2023 and 2024 audited actuals and 2025 projected costs. The clothing allowance and training will increase in 2026 to cover being fully staffed, rising costs and provide for the annual addition of boots. This division is projecting a 2026 budget increase of 1.38% from 2025 budgeted.

Wastewater Fund - Accounts for all operations of the Town's wastewater services. It is primarily financed by user charges and user connection fees (tap fees).

- Major revenues: services, tap fees, 35% reimbursement from Mountain Village on capital and operating expenses related to the treatment plant.
- The 2023 wastewater rate study has recommended annual rate increases.
 - Rate increases are shown in the table above.
 - The current study recommends an increase of 18% in 2026. Staff is recommending a 5% increase for 2026 as the scope of the treatment plant has changed considerably since the most recent rate study was completed.
- A Funding strategy for Wastewater facility improvements is beginning to take shape beginning with the recent reallocation of open space funds.

Division Mission - To provide safe, high quality, uninterrupted wastewater utility services, in a manner that respects the natural environment and provide exceptional customer service while developing best business practices and motivated workforce.

Service Description - Effectively run the wastewater plants to meet the town's needs and permits through the state.

2026 Focuses

- Continue regional collaboration on designing a wastewater treatment solution that meets the long-term needs of the Telluride region, including a comprehensive assessment of current and future demands, site design evaluation, and integration of advanced treatment technologies.
- Update the 2011 Wastewater Master Plan in coordination with the Town's new Master Plan.
- Support installation for infrastructure for sewer collections for Society Turn.
- Construct new Influent Pump Station.
- Conduct essential maintenance on the current wastewater treatment facility as needed to comply with state regulations and permit requirements.
- Effectively manage and control the discharge of fats, oils, and grease (FOG) into the wastewater system to protect infrastructure, prevent blockages, and support long-term system performance.

2026 Budget - For 2026, the majority of the general ledger accounts did not see an increase. A major change in the department's expenditures pertains to biosolids disposal, as the division continues to encounter difficulties in hiring a second CDL driver, Software Support, travel and training costs for several new employees, as well as expenses for uniforms and PPE gear.

Norwood Public Works facilities, for wastewater operations and third-party support, are outdated and require upkeep and are overdue on routine maintenance. Additional funding is requested to modify existing buildings in preparation for future WWTP construction efforts.

Financial Advisors have recommended not to transfer money into this fund from the Reserve Capital Improvement Fund until we have a better idea of capital costs.

2026 requested budget is utilizing \$2.65M in reserves leaving an ending fund balance of \$6.62M

Parking Fund – Accounts for parking-related expenses, including signage, meters, and debt service on the SilverJack parking garage. Major revenues come from On-Street Parking Fees, SilverJack Parking Fees, Permits and Parking fines.

- Revenues are budgeted conservatively for 2026.
- 2026 budget request includes \$500k capital request for Lot L.
- The 2026 budget is drawing down reserves in the amount of \$335k and has an ending fund balance of \$92k.

Virgina Placer 2A – This fund accounts for the operation of the Virgina Placer 2A apartments. A COP was issued in 2025 for construction of this project.

Telluride Housing Authority (THA)

THA – accounts for the activity in the Shandoka, Virginia Placer, Voodoo and Sunnyside affordable housing units, including the long-term debt on the units, the rental income from the units, and the costs to manage and maintain the affordable housing units.

- For more detail please refer to the THA cash flow model memo.

Rental Housing Division Mission - To support the local residents who make up our workforce with safe, well-maintained, and sustainable housing opportunities. Strive to introduce and foster additional services to enhance the well-being of the individuals within our community.

Service Description - Oversee the management of 212 rental housing units, including a diverse mix of apartments, townhomes, tiny homes, and a 47-bed boardinghouse. Additionally, manage approximately 3,000 square feet of commercial space at the Voodoo multipurpose building. Aim to address food insecurity and connect residents to regional senior services as time and budget allow.

2026 Focuses

- Provide further education of the Telluride Employee Rental Housing Policies (TERHP) and application processes by offering two public forums.
- Propose potential updates/edits for the TERHP to THA/Town Council after one year of data collection and tenant meetings.
- Foster community within town rental properties by offering two tenant social gathering opportunities.

- Continue Annual Rental Housing Tenant Survey to gather tenant feedback.
- Finalize Phase II of the Window Replacement Project for buildings A-E

2026 Budget – There is a continuing capital project at Shandoka. There will be a third phase of the window replacement project; the unanticipated cost increase due to tariffs extended the completion of this project.

All Housing Enterprise Funds started paying an administrative fee and insurance coverage in 2025. The insurance costs rose significantly for 2026 which has increased O&M costs. Staff is working to get these costs reduced.

The Community Services Department's salaries are allocated between each of the town-owned housing projects. This will better align with best practices.

All Housing Enterprise Funds are now paying an administrative fee and insurance coverage which has increased O&M costs.

Contributions & Transfers (Administrative Fee)

- Transfers to the General Fund for an "Administrative Allocation".
- This allocation is needed to ensure the utility funds and other enterprise funds pay their fair share of administrative salaries and costs. The basic justification for this is that each fund must pay for its true operating costs, including administrative costs. Think about a utility. If it was a free-standing operation, it must have an administrative manager, all accounting functions, HR functions, legal services, a board of trustees, Town Clerk Functions, etc. The utility rates should be set to recover the full operating costs, including these. To do otherwise would be subsidizing the utility operation with services paid for out of the General Fund by taxes.
- This method is used to allocate not just the wages and benefits but a percentage of the entire Department's costs. This methodology involves determining the appropriate allocation percentage for the administrative function and then applying the percentage to the entire Department or Divisions costs, including supplies, building utilities, etc.

Shandoka Fund - This fund accounts for the operation of the Shandoka apartments. This fund has been able to cover operating costs annually but not all large capital projects.

Virginia Placer Fund - This fund accounts for the operation of the Virginia Placer apartments and Boarding House. Both were constructed in 2017. 2019 is the first year they were fully occupied.

Sunnyside Fund - This fund accounts for the operation of the Sunnyside apartments.

- Construction was completed in the Spring of 2023.
- Addition of insurance line item allocated based mainly on insured cost of Fund Assets.
- Addition of Administrative Fee.

- \$33.5k transfer from Affordable Housing Fund to cover cost of electric utility.

Interest proceeds in the Sunnyside Fund were moved to the General Fund in 2025 as this revenue was from bond proceeds for the construction of the Sunnyside housing units which have been fully utilized. The interest income earned from these bond proceeds over the past two years will be used in order to meet the debt service coverage instead of a subsidy from the Affordable Housing Fund. Once this revenue source has been fully utilized, if necessary, Sunnyside could need a subsidy from the town in order to meet the debt service coverage requirements.

Voodoo Fund – This fund accounts for the operation of the Voodoo apartments. Occupied in the Fall of 2024.

- 2026 will use reserves from bond proceeds in excess of capital cost to help fund the operations in 2026.

The interest income earned from bond proceeds from 2023-2024 were used in order to meet the debt service coverage instead of a subsidy from the Affordable Housing Fund. Once these two revenue sources have been fully utilized, if necessary, Voodoo could need a subsidy from the town in order to meet the debt service coverage requirements.

PANDORA PLANT IMPROVEMENTS

Overview

Request Owner	Kyle Beck, Public Works Director
Department	Water
Request Groups	Water Fund
Form Type	Capital Improvement
Request Type	General Capital Requests

Description

The Pandora Water Treatment Plant (PWTP) was constructed in 2014. There are currently two valve locations that control the flow of raw water into the plant: Blue Lake valve and one located outside of the WTP. The valve located outside of the WTP cannot be closed under pressure which requires water to be turned off at Blue Lake for any construction. Replacing the valve allows Town control of water in and out of plant. Complete mandatory repairs from state survey. Replace wet well tank lining. Work on solids handling equipment. Replace failing retaining wall. Work on Fall Crest flow determination options.

1. Remove existing failed clean in place, underground storage tank.
2. Raw water pipe inspection from Bridal Veil to WTP.
3. New staff gauge at Bridal Veil Creek
4. Retrofit for sulfuric acid
5. Road maintenance
6. Post lamella mixing tank
7. Micro Hydro repairs

Benefit to Community

Protect public health with safe drinking water preventing disease.

TREATMENT PLANT IMPROVEMENTS

Overview	
Request Owner	Kyle Beck, Public Works Director
Department	Wastewater
Request Groups	Wastewater Fund
Form Type	Capital Improvement
Request Type	General Capital Requests

Description

Construct new influent pump station and equalization tank. Renovate Wastewater Laboratory. Decant Tubes. Scum Arm. Eletrical upgrades. HVAC improvements. Upgrade UV process. New Rotors. Building upgrades.

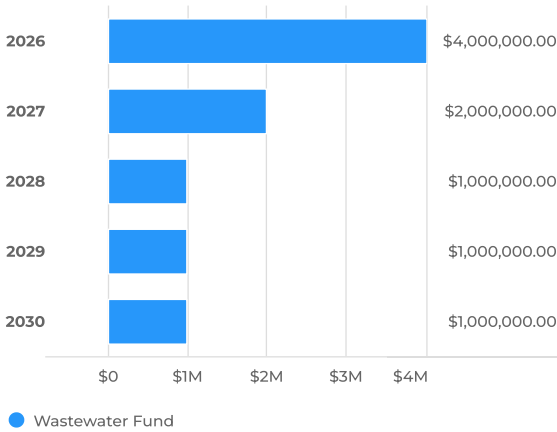

Benefit to Community

Protect public health by properly treating wastewater for preventing disease and protecting the environment.

NORWOOD PROPERTY CONTRACT SERVICES

Overview	
Request Owner	Kyle Beck, Public Works Director
Department	Wastewater
Request Groups	Wastewater Fund
Form Type	Capital Improvement
Request Type	General Capital Requests

Description

We have had several contractors stay at the Norwood property to help minimize project costs. We have received plenty of feedback about it being outdated and rundown. This project will provide the necessary updates to the facility to make it a comfortable stay.

Benefit to Community

Housing for contractors for capital projects.

**Town of Telluride
Town Council
MEMORANDUM**

Title:	Community Services Departments - Division of Rental Housing Budget Considerations
To:	Mayor and Town Council
Meeting Date:	October 9, 2025
Submitted By:	DeLanie Tapson, Community Services Alexandra Slaten, Legal Kailey Ranta, Finance

Introduction:

In 2022–2023, the Telluride Housing Authority (THA) Subcommittee identified the need for a central document to guide staff, tenants, and prospective tenants in qualifying for and managing Town-Constructed Rental Units. The goal was to create clear and consistent policies responsive to current community needs.

Following that direction, staff reviewed occupancy and qualification criteria, focusing on aligning income limits and employment requirements with Telluride’s unique challenges. Findings were first shared in November 2023, leading to continued data review, public input, and policy refinement throughout 2024. On November 19, 2024, the THA Board formally adopted the Telluride Employee Rental Housing Policies (Policies), emphasizing clarity, fairness, and effective management of Town-Constructed Rental Units.

The Rental Housing Division’s mission is to provide safe, affordable housing for local employees and their families while maintaining long-term financial sustainability. The Policies set income and asset limits, create tiered rental opportunities, and outline clear qualification standards. This helps preserve economic diversity, ensure efficient use of limited units, and provide transparent and consistent decision-making.

The Rental Housing Policies directly inform budget projections for the Town’s rental portfolio. This memo highlights that connection and identifies the specific direction needed from Council to prepare the 2026 budget. While policy discussions provide important context, the primary purpose of this memo is to secure clear budget guidance.

Background:

Each year in the Spring, the U.S. Department of Housing and Urban Development (HUD) publishes updated **Area Median Income (AMI)** levels. These figures serve as the foundation for the Town's rental housing rent tables and income tiers. By design, AMI updates track shifts in regional income levels and ensure housing affordability standards remain current. Because these updates are released in the Spring of each year, and since the Town of Telluride fiscal year begins in January, staff was directed to use the AMI from the prior year to calculate rents. 2025 rent rates were based on the 2024 published AMI for SMC and the 2026 rent rates would be based upon the 2025 AMI for SMC.

In 2025, San Miguel County's AMI increased by **9%**, representing a significant year-over-year change. This update directly impacts rent calculations across all Town-managed rental properties and would take effect in January 2026 pursuant to the Policies. This increase is reflected in the 2026 Budget Requests.

AMI Table 2025: There was a 9% increase over the 2024 AMI for SMC

Household Size		1-person	2-person	3-person	4-person	5-person	6-person

Tier J	240%	\$184,080	\$210,480	\$236,880	\$263,040	\$284,160	\$305,280

Rental Affordability Framework

As stated in the Rental Housing Policies, affordable housing is generally defined as rent and utilities not exceeding 30% of a household's monthly gross income. The Telluride Housing Authority (THA) bases rents on this standard, though one project applies a slightly lower Project Multiplier to improve affordability and reflect property age and amenities.

As outlined in **Appendix B of the Rental Housing Policies**, rents are tied to the San Miguel County AMI. The AMI data is used to establish both the Rent Targets and the Eligibility Limits:

Tier	A	B	C	D	E	F	G	H	I	J
AMI Rent Target	45%	60%	80%	100%	120%	140%	160%	180%	200%	220%
AMI Limitation	60%	80%	100%	120%	140%	160%	180%	200%	220%	240%

Formula:

Target Rent = (AMI Rent Target ÷ 12) × Project Multiplier

Example: a Tier C rent for a 2-person Household in a 2-bedroom apartment at Sunnyside would be calculated as follows: \$1721 = (\$76,480 ÷ 12) x .27

Current Project Multipliers:

- Shandoka (except Building F): **27%**
 - Shandoka Building F: **30%**
 - Virginia Placer: **30%**
 - Sunnyside: **30%**
 - Voodoo: **30%**
- * Boarding House rents are calculated separately but follow affordability principles.

While not previously incorporated into the Policies, staff was also guided to minimally adjust rents by unit type if there was a significant difference in amenities between units of the same bedroom count at the same Project. In the interest of transparency and consistency, staff presents the following amenity multipliers which will be incorporated into the next Policies revision. Not all Projects have a multiplier if units of the same bedroom count are roughly equivalent, and any unit type without a multiplier specified has a multiplier of 1:

Unit Amenities Multiplier

Project	Unit Type	Multiplier	Justification
Virginia Placer	Tiny Home	.97	Tiny homes are only 196 sf and more than 50% smaller than the studios at Virginia Placer
	Studio	1	Baseline
	2 bed/1 bath	1	Baseline
	2 bed/2 bath	1.03	This apartment type has an extra bathroom and ~80 more sf than the 2-bedroom, 1 bath apartment
Shandoka (A-E and G-H)	2 bed/1 bath	1	Baseline
	2 bed/2 bath + Loft	1.05	The extra bathroom and the loft, which could act as a usable bedroom, add another ~100 sf
	3 bed/1 bath	1	Baseline
	3 bed/ 2 bath	1.03	This apartment type has an extra bathroom and ~80 more sf which are sought after amenities
	3 bed/2 bath + Loft	1.05	The extra bathroom and the loft, which could act as a usable bedroom, add another ~100 sf

As established in the adopted Rental Housing Policies, maintaining alignment with HUD-published Area Median Income (AMI) levels is essential to the long-term stability and fairness of the Town's rental housing program. Each year, HUD updates AMI based on regional income data, ensuring that rents reflect real changes in household earning capacity. By anchoring calculations to this external benchmark, the Town avoids the inequities, precedent concerns, and administrative burdens that would result from creating a local AMI standard.

This alignment also strengthens program credibility and transparency. Tenants can see that rent adjustments are tied to a neutral, widely recognized federal measure rather than subjective local decisions, which builds trust and predictability. Moreover, consistency with HUD standards preserves the Town's eligibility for outside funding programs that often require this alignment.

Financially, linking rents to HUD AMI protects the Town’s ability to cover operating and maintenance costs while keeping rents affordable across income tiers. Tracking actual income trends allows the program to balance affordability for tenants with the fiscal sustainability needed to maintain and improve the Town’s limited rental housing stock.

In short, HUD’s AMI provides a fair, consistent, and transparent framework for setting rents—safeguarding affordability for residents, stability for the program, and credibility for the Town’s housing policies.

Telluride Rental Housing Annual Rent Increases compared to AMI Table (2018–2024):

Historic Rent Increases and AMI Change comparisons							
	2018	2019	2020	2021	2022	2023	2024
Rent increase	2	1.5	1.5	0	1	7	3.5
AMI increase	7.6	<1	8.5	5	12	4	10

Analysis/Financial Analysis:

Given the 9% increase in AMI and the resulting adjustments to the rental tables for each property, the Finance Advisory Group directed staff to proactively model and analyze the impacts. This analysis considers three key scenarios: (1) holding AMI flat at 2024 levels (2025 rent rates), (2) applying the 2025 AMI update (9% increase) as published, aligning with current rental housing policies, and (3) applying the 9% AMI adjustment while lowering the rent-to-income percentage (Multiplier) from 30% to 27% (for Sunnyside, Virginia Placer, and Voodoo) and from 27% to 25% (for Shandoka Buildings A–E and G-H).

Scenario 2, which aligns with the currently adopted policies, is the scenario reflected in the budget presented within the packet.

For each scenario, staff will present both tenant-level effects and property-specific budget implications, giving Council a clear comparison of affordability outcomes and fiscal tradeoffs.

Scenarios 1 and 3 would result in lower tenant rents compared to Scenario 2; however, they would also reduce program revenues, requiring the use of current reserves to backfill operational costs. This impact would be most significant at properties with higher concentrations of lower-Tier Households, such as Sunnyside and Voodoo.

This analysis is being conducted with 156 renewals out of the potential 212. While there are a substantial number of data points, an assumption is being made that the average renewal per property is being transposed among the remaining renewals. This would mean that if those renewing are in a lower Tier, lower projections could be expected, especially at Shandoka where 67 of the 111 renewals were used.

0% AMI Adjustment

Tenant Impacts:

- A 0% AMI shift would result in no change to the current rental rates.
- The average household would be paying on average 27.4% of their income if rates remain the same.

Budget Impacts:

- As shown in the 2026 “No Increase” cash flow model, each fund, other than Shandoka, would require a subsidy or “moral obligation” to cover the debt model.
- Under a continued flat AMI approach, several projects would deplete their reserves quickly. Virginia Placer and Voodoo would exhaust reserves almost immediately in 2026, while Sunnyside would follow within two to three years. Shandoka, with a larger reserve base, could sustain its deficits for roughly eight years, but the portfolio overall would become dependent on subsidy by the late 2020s.
- As costs increase year over year, sometimes more than 3% on average, a deficit in each fund would begin to grow, as revenues may potentially lag behind the cost of operations and maintenance. The 2026 models, and beyond, project an average 3.5% annual increase in expenses. If rental revenues do not grow at a similar pace, the portfolio will continue to run an annual deficit. However, revenues are not static. Turnover can bring in higher-tier households, which would increase rental income. In addition, if HUD-published AMIs

continue to rise, average rents may increase accordingly, narrowing the gap between revenues and expenses.

9% AMI Adjustment

Tenant Impacts:

- When the 9% AMI increase is applied, the impact on tenants is mixed
 - Some households see modest increases of \$70–\$300/month
 - Others, approximately 3, see decreases as large as \$600/month depending on their AMI Tier and unit type. This could happen if they were on the bottom of their current tier and the 9% shift moves them down, for example, from Tier E to Tier D.
 - The average household would pay, on average, 27% of their income if the AMI is increased 9% and no other modifications were made.

4 BR/2.5 bath	1	\$2,988	\$3,585	\$4,183	\$4,780	\$5,378	\$5,975	\$6,573

Key Patterns

- Most households see increases, but modest in scale.
 - Roughly half of the tenants experience rent increases in the range of \$70–\$250/month, which typically equates to a 2–5% shift in rent-to-income ratio.
 - These increases are most concentrated in mid-AMI tiers (C–E), where incomes are rising in step with the HUD-published AMI update.
- Targeted relief in some tiers.
 - Several households actually see rent decreases — some by over \$600/month — due to the way AMI thresholds re-classify their unit into a lower tier.
 - This occurs primarily at the upper AMI cutoffs, where the new limits pull households down into more favorable Tier brackets.

- Burdened households remain.
 - For lower-income tenants already spending 30–40% of income on rent, the 9% AMI increase doesn’t always reduce rent burden. In some cases, rents still rise (e.g., +\$200–\$300/month), keeping these tenants above HUD’s affordability threshold.
- Equity concern across projects.
 - Projects like Voodoo and Virginia Placer see wider swings — some tenants with high incomes see rent drops (because they shift tiers), while moderate-income tenants see sharp increases.

Budget Impact:

- For 2026, a 9% increase in AMI would potentially result in a substantial revenue increase for all properties. While some properties, like Voodoo, still need to be balanced using their reserves. The remaining properties exhibit more stability and would be cash positive within the next year.
 - It is important to note that shifting Voodoo to fully align with the adopted Rental Housing Policies creates this financial impact. To help minimize this effect and bring rents more in line with the current structure, staff modeled a rent adjustment using a “D” basement tier, or 100% AMI. This adjustment results in shifting approximately 7 households into lower rent categories, reducing revenue and shifting from the original finance model.
- As shown in the 2026 “9% AMI Increase” cash flow model, Voodoo and Virginia Placer would require a subsidy or “moral obligation” to cover the debt model.
- With a 9% AMI increase, the outlook improves considerably. Shandoka and Sunnyside generate small annual surpluses, allowing reserves to grow rather than decline. Virginia Placer remains nearly break-even, with only a minimal annual deficit that its reserves can absorb indefinitely. The one exception is Voodoo, which still runs an unsustainable annual deficit and would exhaust its reserves in the first year. Overall, though, this model places most properties on a path toward balance or growth

9% AMI Adjustment with Multiplier Reduction:

- When we apply the 27%/25% Multiplier, the impact on tenants shifts towards broad affordability relief.
 - Most households see monthly rent decreases of \$100–\$400
 - Some experience very large drops of \$600–\$900, depending on their AMI tier and unit type.
 - The average household would pay on average 25% of their income if there is a 9% AMI increase, and the multipliers are reduced to 27% and 25%.

*The VP Tiny Homes are calculated at 97% of the rent at the VP Studio and the 2-bedroom, 2 bath VP apartments are calculated at 103% of the 2-bedroom, 1 bath VP rent due to the significant difference in square footage.

Voodoo with a 27% Target Rent Multiplier

Unit Type	# of Units	Tier D	Tier E	Tier F	Tier G	Tier H	Tier I	Tier J
Studio	6	\$1,883	\$2,260	\$2,637	\$3,013	\$3,390	\$3,767	\$4,143
1 BR/1 bath	2	\$1,883	\$2,260	\$2,637	\$3,013	\$3,390	\$3,767	\$4,143
2 BR/1 bath	10	\$2,151	\$2,581	\$3,011	\$3,442	\$3,872	\$4,302	\$4,732
3 BR/1 bath	1	\$2,421	\$2,905	\$3,389	\$3,874	\$4,358	\$4,842	\$5,326
3 BR/2 bath	7	\$2,421	\$2,905	\$3,389	\$3,874	\$4,358	\$4,842	\$5,326
4 BR/2.5 bath	1	\$2,689	\$3,227	\$3,764	\$4,302	\$4,840	\$5,378	\$5,915

Key Patterns

- Most households see decreases, often modest to meaningful.
 - A majority of tenants experience rent reductions between \$100–\$300/month, typically lowering rent-to-income ratios by 3–5 percentage points.
 - Several households, particularly in higher AMI brackets, see decreases of \$400–\$900/month due to recalibration of their rent caps.
- Targeted relief in stressed tiers.
 - Lower- and mid-AMI households benefit most, with rents drawn down closer to 25% of household income. (down from 27% in 2025)
 - This provides the clearest immediate affordability gains for tenants previously spending more than 30% of their income on rent.

Budget Impacts:

- As shown in the 2026 “9% Increase 27/25% Multiplier” cash flow model, all properties except Shandoka would require a subsidy or “moral obligation” to cover the debt model.
- Under the 27%/25% multiplier adjustment, immediate relief for tenants translates to deeper structural deficits. Voodoo again depletes its reserves immediately, while Virginia Placer and Sunnyside would exhaust their reserves within two to three years. Shandoka narrowly breaks even and could sustain itself long-term, but its stability does not offset the broader portfolio’s shortfalls.
- Similarly to keeping rates flat, this reduction in multiplier has an impact on how each debt and expense model is paid.
 - This, in turn, will require evaluating how the Boarding House impacts the overall Virginia Placer model. That review would occur as part of a broader policy discussion, since the information presented here is based on actual revenues from both Virginia Placer and the Boarding House.
 - As previously mentioned, Voodoo has not been part of the current Rental Housing policy due to the property being filled prior to adoption. By aligning the property with our policy, the Voodoo revenues see a sharp decline. Establishing a bottom tier at D, rather than C, mitigates losses in this scenario by roughly \$70,000 while still providing meaningful reductions in rent. Utilizing Voodoo reserves to balance the budget until the property is refinanced in 2 years will be needed to avoid affordable housing loans.

Recommendation:

If Council wishes to pursue an affordability adjustment, staff recommends focusing on modifying the rent-to-income multiplier rather than altering AMI alignment. Continuing annual AMI updates as outlined in the adopted Policies maintains long-term fairness, transparency, and financial stability.

Adopting a revised rent-to-income percentage as the Rent Target Multipliers (27% and 25%) as the primary affordability lever will:

- While many tenants will receive a reduction in rent under the multiplier reduction, some tenants who are renewing later this year are still subject to the pre-housing policy rents. This would mean that they may incur an increase due to the new tiers. Staff will continue to phase in any significant rent increases incrementally during lease renewals to avoid sudden, difficult financial strain to tenants.
 - Implementation:

- Rent increases in excess of 10% and up to 19% will be implemented by one 6-month Lease at one-half of the amount and a subsequent 12-month or 24-month Lease at the full rent rate.
- Rent increases of 20% and up to 49% will be implemented by two 6-month Leases at a minimum 15% increase. The Household income will then be reevaluated based on the rent rates in effect at the next renewal.
- Rent increases in excess of 50% and up will be implemented by two 6-month Leases at a minimum 20% increase and then the Household income will be reevaluated based on the rent rates in effect at the next renewal.
- In all cases, it is determined by the tenant how they would prefer to proceed in this incremental implementation process.

Next Steps:

Staff needs direction at this meeting to meet the budget adoption schedule.

- October 10: Budget notice published.
- October 21: Budget adoption scheduled.

Should council direct staff to shift from the current Rental Housing Policies, meaning a 9% increase to AMI within the Rent Target Multiplier of 30% and 27%, an update to the policies would be required.

- November 25 or December 16: Work session to discuss the following Housing Policies updates:
 - Moving Rent Target Multiplier to 27% and 25%
 - Setting Tier D as the lowest Tier at Voodoo
 - Boarding House model update
- November 25 or December 16: Town Council to adopt a resolution updating Rental Housing Policies to reflect Council's decisions on AMI alignment and/or rent-to-income percentages.
- January 1, 2026: updated Policies take effect.
